

Cluster analysis of the government spending in the counties of Goiás and their quality of life

Renan Oliveira Firmino ^{1 2}, Everton Batista da Rocha ³

Abstract: *In this work, we analyze the government spending and the quality of life in the municipalities of Goiás - Brazil, using cluster analysis. We observed the municipalities of medium and small size used considerably more resources than larger municipalities to achieve similar levels of quality of life.*

Keywords: Cluster Analysis; Multivariate Statistics; Goiás; government spending.
