

## Playful resources for teaching and learning of probability and statistics

Yana Miranda Borges <sup>1</sup>, Breno Gabriel da Silva<sup>2</sup>, Rafaela Galo<sup>3</sup>, Naiara Caroline  
Aparecido dos Santos<sup>4</sup>

**Abstract:** *According to the National Curricular Parameters, play materials represent an important methodological resource in education. In order to subsidize didactic resources for teachers of different levels of education, a workshop was carried out using manipulative materials, based on Probability and Statistics studies.*

**Keywords:** Teaching; Probability and statistics; Ludic; Workshop.
