

Socioeconomic grouping of Rio Grande do Sul Municipalities

Mariana Motta Dias da Silva¹, Augusto Maciel da Silva², Enio Junior Seidel³, Ana Lucia Souza Silva Mateus⁴, Angela Pellegrin Ansuaj⁵

Abstract: This study aims to determine the socioeconomic conditions between the municipalities of the state of Rio Grande do Sul, based on census data, and evaluate how the changes occurred over the years. Five groups of municipalities were detected in 1991 and four groupings in 2000 and 2010.

Keywords: indicators; regional groups; “rio grandenses” municipalities.
