

## **LECA: Educational GUI R package for descriptive statistics and probability**

**Ana Carolina Abreu Barbosa<sup>1</sup>, Deyse Márcia Pacheco Gebert<sup>2</sup>, Airton Kist<sup>3</sup>**

**Abstract:** The R package LECA offers descriptive statistics and probability functions that are accessed through a brazilian portuguese graphical user interface. It's goal is to make the learning of basic statistic topics easier even for the users that have little to no experience with the R software.

**Keywords:** R Software; Descriptive statistics; Probability; Graphical user interface.
