

## Qualitative analysis of individual scientific production at UNESP

Carlos Alberto Oliveira de Matos <sup>1</sup>

**Abstract:** *The quality problems of the UNESP scientific production in the year 2018 were diagnose with h index. Different problems are pointed out and it is recommended to abandon the strategy of publication in too few knowledge areas that is adopted by the vast majority of the authors of this institution.*

**Keywords:** h index; Web Scrapping; multidisciplinary; interdisciplinarity.
