Aplicação do Modelo de Reposta Nominal da TRI a Avaliação Educacional de Larga Escala

André Felipe Zilio da Silva[1], Dalton Francisco de Andrade[2], Adriano Ferreti Borgatto[3], Luiz Ricardo Nakamura[11]

Abstract:

A psychometric study was carried out using data from large scale assessments applied to elementary school students in a Brazilian municipality. The aim of this work is to apply item response theory model for nominal response data to this dataset.

Keywords: Item Response Theory; Large Scale Assessments; Nominal Response Model.
